Base Model #201 shown  
 Wide Base for Shower Stall use  
 Overall Footprint – tallest setting, 20 1/2" x 20 1/2"

The name hints at what these products are intended to do. They can be an adjustable height toilet seat, a toilet safety frame, a shower bench, bathtub bench or a transfer bench. The modular design lets you decide.

The densely padded seat has a cut-out that can be positioned to the front, back, or either side and the foam is configured in our unique "**Waterfall**" style that addresses pressure problems caused from sensitive tissue coming in contact with unforgiving surfaces. The open frame system not only affords unimpeded directional seat placement but also allows the optional back and arms to be correctly positioned without restriction and **without tools**. The 350-pound capacity frame is created from high-quality **Stainless Steel** that provides a strong, durable, non-corrosive product.
